Office Order

The agenda regarding grant of consent to establish / consent to operate to units located in Non-conforming area was placed before the Board in its 165th meeting held on 30.8.2012 vide agenda item No. 165.8 (S) and the Board has approved the proposal that the Pollution Control Board will not ask for CLU from existing units which were operating before 1.4.2011 in non conforming area as the HSPCB is to deal with these cases only from pollution angle and will give provisional consent to operate on year to year basis till CLU is obtained provided they are having adequate pollution control devices. However, these units will be required to obtain Ex-post facto Consent to establish within a period of 6 months and shall also obtain consent to operate within this period. No action will be initiated against these units within period of 6 months because Consent to establish / Consent to operate could not be issued earlier to these units for want of CLU earlier. If these units failed to install requisite pollution control devices and failed to obtain ex-post facto consent to establish and consent to operate within specified period action shall be taken against these units under the provisions of Water/Air Acts. Further, no permission shall be given to the units located in Municipal areas, HUDA areas, TP schemes of the Committee or any other approved residential colony/ Area.

This policy will be applicable only for Orange category of industries.

All the concerned shall ensure the compliance of the above said decision of the Board, effectively.
